Meet the island locals

Coffee with the neighbors

Look up from your morning coffee now and then. The island's resident monkeys sometimes appear in the trees before you've even finished your first cup.

Birdwatching from your doorstep

Hawks and Palawan hornbills are among the many birds that call Ipil Island home. Start your bird count right outside your door and see how many you spot on your walk.

A dog named Tiger

If you hear someone calling "Tiger!" on the island, they mean our dog. You might meet him during your stay, along with our resident black cat.

See you on the island.

We look forward to welcoming you to Ipil Island
and sharing a sunset on our little stretch of shore.

Warm wishes,

The Ipil Island Team
